City to Conduct Community Survey

La Cañada Flintridge, CA –The City Council has hired an independent polling firm to conduct a community survey on residents’ views about solid waste and recycling services and customer satisfaction. The survey will help the City be responsive to the needs of residents by gathering their experience and opinions on a range of solid waste and recycling related issues.

Fairbank, Maslin, Maullin, Metz & Associates (FM3), a public opinion research firm, will conduct a random and statistically valid telephone survey. Over the next few weeks, residents may receive a telephone call (home or mobile) asking for participation in the survey. Participation is encouraged so that the City Council can hear the voices of residents.

Upon completion of the survey, results will be presented at an upcoming City Council meeting.

“We value our residents’ views on solid waste and recycling services. This survey will help us gauge public opinion on this topic,” said City Manager Mark Alexander.

The City of La Cañada Flintridge is committed to providing high quality services to residents and preserving our unique community. For more information, please contact City Hall at (818) 790-8880 or visit the city website at www.lcf.ca.gov.
