

## Please join us for the second Public Workshop for the City of La Cañada Flintridge Climate Action Plan!

**When:** 6:00 p.m., Thursday, March 10, 2016

**Where:** City Council Chambers at La Cañada Flintridge City Hall, 1327 Foothill Boulevard, La Cañada Flintridge

### Public Workshop:

The City of La Cañada Flintridge is working to prepare a climate action plan (CAP) to reduce greenhouse gas emissions (GHG), while maintaining or improving the quality of life for residents and reducing costs for individuals and businesses. The CAP is intended to build on the community's existing sustainability efforts (such as the City's 2013 Energy Action Plan) to facilitate the reduction of GHG emissions throughout the City of La Cañada Flintridge in a way that is practical, efficient, and beneficial to the community and enhances La Cañada Flintridge's desirable characteristics and qualities.

Please join us as we review the results of the City of La Cañada Flintridge's recently prepared 2014 Draft GHG Emissions Inventory. The GHG inventory identifies the major sources and quantities of GHG emissions produced by City government operations and community activities within the city during 2014. This meeting will also provide valuable information regarding progress and changes since the 2007 GHG Inventory and 2013 Energy Action Plan. This will be an **open, inclusive, and collaborative** process. We welcome your input!

Your attendance is encouraged but if you can't make it you will be able to find the meeting agenda, materials, and minutes on the [City's website](#). The City's website will also offer an opportunity to provide input if you are unable to attend in person.

### Questions?

Please visit the [City's website](#) for more information on the project or contact Christina McAdams at [cmcadams@rinconconsultants.com](mailto:cmcadams@rinconconsultants.com).
