Good afternoon Ms. Harris,

As I explained during our telephone conversation today, I am coordinating the work with the property owner and project architect to submit the drawings for the extended deck. Since many details have to be considered, we need more time to wrap up the revisions and therefore request to be scheduled for the following hearing on Nov 8, 2016.

I will be sending you a schematic design of the deck and the piles, plus the retaining wall that protects the septic tank, to clarify everything with you before submitting the final set of drawings for the hearing.

In addition, since the project is currently ongoing, I appreciate if you can possibly coordinate with the planning director to have the changes be reviewed in an Administrative Review (expedited).

Please review and advise.

Many Thanks,

Nazafarin Hadian, M.Arch, LEED, ABA
