

Measure Support Summary

Description		Support for the Measure			
		None	Low	Medium	High
Energy	E-1	City of La Cañada Flintridge Energy Action Plan Community Implementation			
	E-2	Promote residential and commercial PV installation to reduce energy usage and improve reliability of service without conflicting with the urban forest.			
	E-3	City of La Cañada Flintridge Energy Action Plan Municipal Implementation			
Water	W-1	City of La Cañada Flintridge Energy Action Plan Community Water Measures Implementation			
	W-2	Water Efficient Retrofits and Upgrades			
	W-3	Water Efficient New Development			
	W-4	Expand recycled water use in the community			
	W-5	Reduce Water Usage Associated with City Facilities and Operations			
Transportation	T-1	Expand and Improve the City's Bicycle, Pedestrians, and Equestrian Networks			
	T-2	Improve Safety and Comfort for Bicyclists, Pedestrians, and Equestrians			
	T-3	Expand and Improve the Transit Network and its Accessibility			
	T-4	Commute Trip Reduction			
	T-5	Improve Traffic Flow and Reduce Vehicle Idling			
	T-6	Low Carbon/Alternative Fuel Vehicles			
	T-7	Low Emissions City Fleet Vehicles			
	T-8	Facilitate high density, mixed-use, transit-oriented and infill development in appropriate locations consistent with community character			
	T-9	Reduce Emissions from Construction Equipment and Vehicles			
	T-10	Reduce Emissions from Lawn and Garden Equipment			
Solid Waste	SW-1	Reduce the amount of organic material sent to landfill			
	SW-2	Continue to reduce community-generated solid waste			
	SW-3	Reuse of Community Goods			
	SW-4	Remove and Reduce Single-Use Items			
	SW-5	Reduce Construction and Demolition Waste			
	SW-6	Improve Efficiency of Waste Collection			
	SW-7	Reduce City-generated Solid Waste			
Trees	UG-1	Create an Urban Forest Inventory			
	UG-2	Community Tree Planting			
	UG-3	Tree Planting on City Property			
	UG-4	Preserve, Enhance and Acquire Additional Greenspace			
Adaptation	A-1	Identify and Periodically Reassess Local Climate Change Vulnerabilities			
	A-2	Improve Quality and Reliability of the City's Water Supply			
	A-3	Improve the Resilience of Systems that Provide Resources and Services Critical to Community Function			
	A-4	Improve Public Preparedness			
	A-5	Develop a Heat Response Plan			
	A-6	Improve Access to Healthy Foods			
	A-7	Identify, Protect, and/or Restore Locations that Serve as Habitat, Corridors, and/or Linkages Between Undeveloped Areas.			
	A-8	Improve Wildfire Management
