**Date:** October 24, 2017

---

A review for a new two-story residence was initially scheduled for October 24, 2017, Planning Commission hearing. Due to concerns from abutting neighbors, mainly regarding structure's height and potential pool equipment noise, the applicant and staff are working to explore possible redesign options. This is to ensure neighborhood compatibility and to address the neighbors' concerns. Continuance of this item to November 14, 2017, hearing is requested and recommended.
