

5

Ways to Help Conserve Water

1 Only water lawns in the pre-dawn or early morning hours and save **25 gallons** of water per day.

2 Stop runoff and overspray from outdoor watering and save **500 gallons** of water per month. Any cycle over 5 minutes may result in runoff. Re-adjust watering schedules to allow for two shorter cycles with 30 to 45 minutes in between and save **15-25 gallons** of water per minute.

3 Use a broom instead of a hose to clean off sidewalks and driveways and save **150 gallons** of water each time.

4 Check your sprinkler system for leaks, overspray and broken sprinkler heads and save **500 gallons** of water per month.

5 Talk with your family and friends about saving water - **Priceless!**
